## EXPERIENCE

Senior UX Designer at Thermo Fisher Sep 2022 - present

*Implement strategic scientific product experiences in conjunction with cross functional product teams and external partners.*

Design user experience and user interface for various products across the entire UX and UI lifecycle, including research, strategy, design, and optimization. Create a new design system that will enable consistent user experience across products and platforms.

UX/UI Designer at Walmart Mar 2022 - Aug 2022

*Build an integrated, customized experience, powered by AI, for corporate associates using a research-led design practice.*

Designed and delivered the Approvals Inbox, My Org, and Profile for mobile and Approvals Inbox and Profile for desktop. Provided UX Requirements to engineering in a timely manner to meet the production deadlines.

Chief Marketing Officer at Quus Aug 2021 - Jan 2022

*Use blockchain to decentralize the small business ecosystem and implement Non-Fungible Token to protect the book copyrights.*

Led design strategy of Titanbooks.io marketplace. Conducted user research and created personas, user flows, information architecture, wireframes, and mockups. Created and managed marketing content and strategy for Sanggataalk.

UX Researcher at Athena May 2021 - Aug 2021

*Improve supply chain transparency, traceability, and verification of ethical sourcing practices with blockchain technology.*

Researched the certification standards and critically evaluated whether they cover the firm's pillars: social, environmental, and ethical. Developed the compliance scoring system, designed the dashboard interface, and collaborated with managers, engineers, and designers for product development.

HCI Researcher at UCSD May 2019 - Aug 2019

Examined automated approaches to classifying data-centered talk and offered insights into how commenters convey their reasoning about data. Used text classification techniques and natural language processing to identify features related to the comments that contain data-centered talk, such as cosine similarity, hyperlinks, and comparison terms. Published in ACI CHI Conference on Human Factors in Computing Systems.

## EDUCATION

Cornell Tech

Master of Engineering in  
Computer Science  
May 2021 | GPA: 3.4

Cornell University

Bachelor of Science in  
Information Science  
Concentration in UX  
Minor in Business  
May 2020 | GPA: 3.7

## SKILLS

UX Design Skills

User-centered design  
Interviews & surveys  
Information architecture  
Contextual inquiry  
Thematic analysis  
Wireframes & prototypes  
Usability & A/B testing  
Cognitive walkthrough  
Heuristic evaluation

Design Tools

Adobe XD  
Figma  
Illustrator  
InDesign  
Invision  
Sketch

Technical

HTML/CSS  
Javascript  
PHP  
Python  
SQL
